

Ready-made Sofas

relaxed family living

www.1825interiors.com.au

Our sofas are always well-priced, making them ideal for relaxed family living: a family room, granny flat or holiday house. The majority of our sofas and ottomans have been designed by us and are exclusive to 1825 interiors. We pay careful attention to both their construction and their proportions so you can be sure that they not only look great, they feel great too.

POSITIONING

When positioning your new sofa in your home, please ensure that it is lifted, not dragged, across the floor or you will risk damaging both the product and the floor.

WARRANTY

1825 interiors has a wide selection of sofa styles which are upholstered in a variety of fabrics. The fabric composition of each sofa will vary and this information can be found on our website as well as the information tag attached to the product at the time of purchase. The fabric composition will determine the specific care instructions for each product, however general fabric care remains the same.

1825 interiors warrants that our sofas are free from manufacturing, structural or materials defects for 24 months from the date of delivery. Refer to our website for further details.

FABRIC CARE

Colour care

It is important to note that no fabric is 100% colour fast and that it is impossible to prevent colours fading unless adequate precautions are taken in the home. Place fabric sofas away from direct sunlight and heat. Fumes from chimneys, gas and open fires, auto exhausts and stoves all contribute to discolouration and deterioration of fabric.

General care

Vacuum weekly using low suction and treat stains and spills as soon as they occur. 1825 interiors offers fabric protection at an additional cost to help repel stains.

Fabric protection

We highly recommend purchasing fabric protection by Guardsman for peace of mind. It comes with a 5 year warranty against accidental stains and damage.

Spot cleaning

Stains and spills must be treated as soon as possible. Test in an inconspicuous area first to ensure fabric and colour are not removed. Gently scrape any solids or mop any liquids from the surface of the fabric. Use of soap or detergent with water should be approached with caution as overzealous rinsing to remove soap residue may result in over-wetting, watermarks, and wetting of the substructure. This may create additional stains or damage the product. We recommend Halo Fabric Spot Cleaner, available from 1825 interiors stores.

Our spot cleaning advice is offered in good faith and should not be considered a guarantee that all stains can be removed. For severe stains please consult a professional upholstery cleaner.

Professional cleaning

The frequency of professional cleaning is determined by furniture use, upkeep and environmental conditions. As a good rule of thumb, professional cleaning is recommended every 12 months for most fabric sofas.

Pilling

Pilling can occur occasionally as a result of normal daily wear and tear, climatic conditions, user environment and some clothing types, and should not be considered a fault. Pills can be removed with a battery-operated pilling tool available from most haberdashery stores. De-pilling only removes unsightly loose surface fibres and will not affect fabric performance.

Yellowing

In any room where tobacco is smoked, fumes will result in most fabrics being stained a yellow/brown colour, particularly lighter fabrics.

BATHURST

Shops 1 & 2, 170 Sydney Road, Kelso NSW 2795
(02) 6332 1137

CAMPBELLTOWN

Ground Floor, 8 Blaxland Road, Campbelltown NSW 2560
