

Wood Design Collection

reclaimed & restored hardwood

www.1825interiors.com.au

WHERE OUR TIMBER IS SOURCED

1825 interiors specialises in family-friendly furniture made from reclaimed pine shipping pallets, sourced from all over the world. Our Wood Design collection, however, is unique in that it is custom-made from reclaimed hardwood – mostly seasoned fence palings, but also roof trusses, wall frames and the occasional horse rail. Our environmentally conscious wood sourcing programme minimises the impact on our natural environment. This gives our Wood Design collection a genuinely rustic feel and a tick for being environmentally sound.

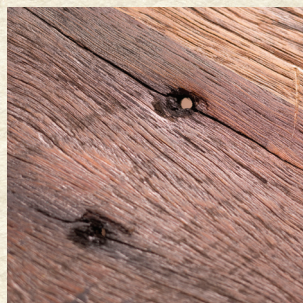

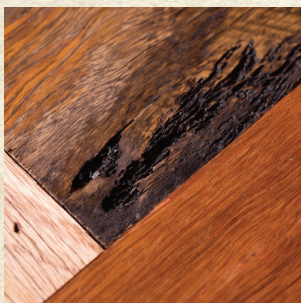

Each piece is lovingly hand-crafted in Australia, from Australian hardwood, with a choice of finishes to enhance the natural beauty of the timber and complement your décor. The original nail holes are still visible. The advantage of this collection is that all of the pieces are made to order from our standard selection – simply bring in your measurements for a quote.

THE MANUFACTURING PROCESS

Because each product in our Wood Design collection is handcrafted, no two pieces are exactly the same. It is normal to expect some colour variation and differences in the appearance of the grain, as well as the number and size of the knot holes. Every piece of reclaimed hardwood furniture has its own characteristics and will behave differently.

NATURAL CHARACTERISTICS OF RECLAIMED HARDWOOD

As our Wood Design products are all natural, it is perfectly normal for your new purchase to resemble any of the above images. Nail holes, timber knots, colour variation and timber block patches are common and not considered defects.

MAINTAINING RECYCLED HARDWOOD

Wood Design furniture is not suitable for outdoor use unless the product is treated with a marine grade varnish at the time of manufacture. Regularly monitor outdoor furniture for signs of colour loss, dryness and weathering and apply a fresh coat of marine grade varnish every spring.

When positioning furniture in your home, do not place it in direct sunlight or close to heaters. Doing so can result in damage that is not covered by warranty. Do not use cleaners that contain ammonia, spirits or silicone. Test all cleaning products in an inconspicuous area first. Use a cotton cloth to wipe down recycled hardwood surfaces. Do not use Chux brand or microfibre cloths as they will catch on the timber.

Howard Feed-N-Wax

Feed-N-Wax is a special blend of beeswax, carnauba wax and orange oil. It enhances the natural beauty and depth of grain in finished and unfinished wood, highlighting its golden hues and leaving a protective coating. Used regularly, this product will help prevent drying, fading and cracking while preserving the timber finish. Not suitable for painted surfaces.

Wax-It-All

Wax-It-All is a thick, smooth blend of beeswax, carnauba wax, and food grade mineral oil which revives faded surfaces and helps protect wood from drying out and cracking. Use Wax-It-All to care for a multitude of surfaces. This innovative product revives faded wood, metal, and plastic furniture, polishes wood and painted cabinets, and helps prevent tarnishing on metal surfaces. It enhances and protects surfaces to make them look better and last longer.

CARING FOR PAINTED FINISHES

Howard Clean-A-Finish

Clean-A-Finish effectively cleans all timber surfaces using a traditional blend of gentle yet powerful natural soaps. It easily removes dirt and build up from furniture and is recommended for painted surfaces. It is non-toxic and biodegradable and does not contain any harmful chemical cleaning agents. Apply a light spray onto a soft cloth, not directly onto the surface of the timber.

Take care when using blue glass cleaners as they can stain painted finishes.

WARRANTY

1825 interiors warrants that our reclaimed and restored hardwood furniture is free from manufacturing, structural or materials defects for 24 months from the date of delivery. More information can be found on our website or on the warranty card issued with the product at time of purchase.
